

Dear Year 6 students,

Hope that you all are doing well.

You shall be moving school in the near future and leaving behind your old school and all the teachers you have known there. You may have some anxiety about it. I know how you feel because I felt the same when I was moving school just about a year ago.

Unlike us though, you have not been able to have a 'transition day' where you get to be familiar with the school but you haven't been able to have that due to the Covid -19 situation. However, I am sure that when you come in September, you will be shown around the school so you can become more familiar with it.

When we first came to St Albans, some of us were a bit nervous about making new friends, but you'll be surprised at how many of the senior students you will have known from before either from your previous school or your neighbourhood. The seniors at St Albans are friendly and always helpful. You will also meet new students in your own form and make new friends. I have also made some wonderful new friends over the last year.

The school teachers here are also very supportive and try to make sure you have the best time at school. You will be introduced to a lot of new subjects but all the teachers help to understand them and make learning a great experience.

Sometimes it can be hard to find ways around the school as this school is very big. But you don't need to worry about it. There will be diagrams either showing where you are or which block you are in. Also you can ask any of the older students and they will be able to guide you around the school together so that you can find your class.

I am sure that all of you will have a great time here. I know - because I really like being here. Waiting to see you all in September.

**Yours sincerely
Dipro Kar Y7**
