Advertising and Brand Design?

Our BA/MDes Advertising and Brand Design course is all about getting your message across. We teach our students to do this in lots of interesting and original ways through the use of typography, copywriting, graphics and digital media in order to create advertising campaigns and brand experiences.

As our students often work with real clients, marketing and business skills are integrated into the course. If this sounds exciting and you still haven't made up your mind what course you want to study next September, then we'd love to hear from you. Check out our website for our next Open Day, or you can drop us an email and we'll tell you lots more.
